Note 1 - General information

Alfamito, hereinafter the "Company", was incorporated on February 4, 2016 as a "société à responsabilité limitée" for an unlimited period. The Company is organised under the laws of Luxembourg, in particular the law of August 10, 1915 on commercial companies, as amended.

The registered office of the Company is established in Luxembourg City and is registered at the Trade and Companies register in Luxembourg under the number B203873. On December 19, 2023, the Board decides to change the registered office of the Company from 2A, rue Nicolas Bové, L-1253 Luxembourg, Grand Duchy of Luxembourg to 2C, rue Nicolas Bové, L-1253 Luxembourg, Grand Duchy of Luxembourg.

The financial year of the Company starts on January, 1 and ends on December, 31 of each year.

Object

The object of the Company is the acquisition of participations, in Luxembourg or abroad, in any companies or enterprises in any form whatsoever and the management of those participations. The Company may in particular acquire by subscription, purchase, exchange or in any other manner any stock, shares and/or other participations securities, bonds, debentures, certificates of deposit and/or other debt instruments and more generally any securities and financial instruments issued by any public or private entity. It may participate in the creation, development, management and control of any company or enterprise. Further, it may invest in the acquisition and management of a portfolio of patents or other intellectual property rights of any nature or origin.

The Company may borrow in any form whatsoever, except by way of public offer. It may issue, by way of private placement only, notes, bonds and any kind of debt and equity securities. The Company may lend funds including, without limitation, the proceeds of any borrowings, to its subsidiaries, affiliated companies and any other companies. The Company may also give guarantees and pledge, transfer, encumber or otherwise create and grant security over some or all of its assets to guarantee its own obligations and those of any other company and, generally, for its own benefit and that of any other company or person. For the avoidance of doubt, the Company may not carry out any regulated financial sector without having obtained the necessary authorization activity.

The Company may use legal means and instruments to manage its investments efficiently and protect itself against credit risks, currency exchange exposure, interest rates risks and other risks.

The Company may carry out any commercial, financial or industrial operations and any transaction with respect to real estate or movable property which, directly or indirectly favours or relates to its corporate object.

Consolidation

Pursuant to the legal provisions of the Article 1711-8 (3) 3° of the amended law of August 10, 1915, and the advice CNC 09/002 (previously, advice CNC 2-1 of December 18, 2009) called « advice private equity / venture capital », the Company is an investment company in risk capital having subsidiaries exclusively held with a view to their subsequent resale. As a consequence, the Company doesn't draw up and doesn't publish consolidated accounts. In accordance with the advice CNC 09/002, the fair value of the subsidiaries held with a view to their subsequent resale is disclosed in the notes to the annual accounts of the Company.

Note 2 - Summary of significant accounting policies

Basis of preparation

These annual accounts have been prepared in accordance with Luxembourg legal and regulatory requirements. Accounting principles and valuation rules are, besides the ones laid down by the Law, determined and applied by the managers (the "Board of Managers").

The preparation of annual accounts requires the use of certain critical accounting estimates. It also requires the Board of Managers to exercise their judgement in the process of applying the accounting policies. Changes in assumptions may have a significant impact on the annual accounts in the period in which the assumptions changed. Management believes that the underlying assumptions are appropriate and that the annual accounts therefore present the financial position and results fairly.

Significant accounting policies

The main valuation rules applied by the Company are the following:

Financial assets

Shares in affiliated undertakings or participating interests, loans to these undertakings / securities held as fixed assets and other loans are valued respectively at purchase price and nominal value (loans and claims) including the expenses incidental thereto.

In case the Board of Managers deems that there is a durable depreciation in value of the financial assets, value adjustments are booked, so that they are valued at the lower figure to be attributed to them at the balance sheet date. These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

- Continued -

Note 2 - Summary of significant accounting policies (continued)

Significant accounting policies (continued)

Debtors

Debtors are valued at their nominal value. They are subject to value adjustments where their recovery is compromised. These value adjustments are not continued if the reasons for which they were made have ceased to apply.

Foreign currency translation

The Company maintains its accounting records in Euro (EUR) and the balance sheet and the profit and loss accounts are expressed in this currency.

Transactions expressed in currencies other than EUR are translated into EUR at the exchange rate effective at the time of the transaction.

Long term assets and liabilities expressed in currencies other than EUR are translated into EUR at the exchange rate effective at the time of the transaction. At the balance sheet date, these items remain translated at historical exchange rates.

Cash at bank is translated at the exchange rate effective at the balance sheet date. Exchange losses and gains are recorded in the profit and loss account of the year.

In accordance with prudence principles found within generally accepted accounting principles in Luxembourg ("LuxGaap"), other assets are translated separately, at the lower of the value converted using the historical exchange rate and the value converted using the exchange rate at the balance sheet date. Conversely, other liabilities are translated separately, at the higher of the value converted using the historical exchange rate and the exchange rate at the balance sheet date. Consequently, both realised and unrealised exchange losses are recorded in the profit and loss account while exchange gains are recorded in the profit and loss account at the moment of their realisation only.

Where there is an economic link between an asset and a liability, these are valued in total according to the method described above and the net unrealised loss is recorded in the profit and loss account while the net unrealised exchange gains are not recognised.

Creditors

Creditors are recorded at their reimbursement value. Where the amount repayable on account is greater than the amount received, the difference is shown in the profit and loss account when the debt is issued.

Current tax provision

Provisions for taxation corresponding to the tax liability estimated by the Company for the financial years for which the tax return has not yet been filed are recorded under the caption "Tax authorities". The advance payments are shown in the assets of the balance sheet under the "Other debtors" item.

Net turnover

The net turnover comprises the amounts derived from the sale of products and the provision of services falling within the Company's ordinary activities, after deductions of sales rebates and of value added tax and other taxes directly linked to the turnover.
