Size criteria and categorization of the undertaking

Average number of staff employed during the financial year:

2939 _____ 0,00

Articles 35 and 47 of the amended law of December 19th 2002 specify the size criteria (a description of the size criteria can be found on the page « Forms » under the « Description » section) that are used to categorize the undertakings into "Small-sized undertaking", "Medium-sized undertaking" and "Large-sized undertaking" and thus requiring or allowing the use of abridged or non-abridged versions of the balance sheet and/or the profit and loss account. Large-sized undertakings are those which, on their balance sheet dates, exceed the limits of at least two of the following three criteria provided for under article 47 during two consecutive financial years and that must file their balance sheet and their profit and loss account using the non-abridged versions. For the avoidance of doubt, the Company may not carry out any regulated financial sector without having obtained the necessary authorization activity.

Note 2 - Summary of significant accounting policies

Basis of preparation

These annual accounts have been prepared in accordance with Luxembourg legal and regulatory requirements. Accounting principles and valuation rules are, besides the ones laid down by the Law, determined and applied by the managers (the "Board of Managers").

The preparation of annual accounts requires the use of certain critical accounting estimates. It also requires the Board of Managers to exercise their judgement in the process of applying the accounting policies. Changes in assumptions may have a significant impact on the annual accounts in the period in which the assumptions changed. Management believes that the underlying assumptions are appropriate and that the annual accounts therefore present the financial position and results fairly.

Significant accounting policies

The main valuation rules applied by the Company are the following:

Financial assets

Shares in affiliated undertakings or participating interests, loans to these undertakings / securities held as fixed assets and other loans are valued respectively at purchase price and nominal value (loans and claims) including the expenses incidental thereto.

In case the Board of Managers deems that there is a durable depreciation in value of the financial assets, value adjustments are booked, so that they are valued at the lower figure to be attributed to them at the balance sheet date. These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

Note 2 - Summary of significant accounting policies (continued)

Significant accounting policies (continued)

Debtors

Debtors are valued at their nominal value. They are subject to value adjustments where their recovery is compromised. These value adjustments are not continued if the reasons for which they were made have ceased to apply.

Foreign currency translation

The Company maintains its accounting records in Euro (EUR) and the balance sheet and the profit and loss accounts are expressed in this currency.

Transactions expressed in currencies other than EUR are translated into EUR at the exchange rate effective at the time of the transaction.

Long term assets and liabilities expressed in currencies other than EUR are translated into EUR at the exchange rate effective at the time of the transaction. At the balance sheet date, these items remain translated at historical exchange rates.

Cash at bank is translated at the exchange rate effective at the balance sheet date. Exchange losses and gains are recorded in the profit and loss account of the year.

In accordance with prudence principles found within generally accepted accounting principles in Luxembourg ("LuxGaap"), other assets are translated separately, at the lower of the value converted using the historical exchange rate and the value converted using the exchange rate at the balance sheet date. Conversely, other liabilities are translated separately, at the higher of the value converted using the historical exchange rate and the exchange rate at the balance sheet date. Consequently, both realised and unrealised exchange losses are recorded in the profit and loss account while exchange gains are recorded in the profit and loss account at the moment of their realisation only.

Where there is an economic link between an asset and a liability, these are valued in total according to the method described above and the net unrealised loss is recorded in the profit and loss account while the net unrealised exchange gains are not recognised.

Creditors

Creditors are recorded at their reimbursement value. Where the amount repayable on account is greater than the amount received, the difference is shown in the profit and loss account when the debt is issued.

Current tax provision

Provisions for taxation corresponding to the tax liability estimated by the Company for the financial years for which the tax return has not yet been filed are recorded under the caption "Tax authorities". The advance payments are shown in the assets of the balance sheet under the "Other debtors" item.

Net turnover

The net turnover comprises the amounts derived from the sale of products and the provision of services falling within the Company's ordinary activities, after deductions of sales rebates and of value added tax and other taxes directly linked to the turnover.
